EXPERIENCE

Alfa Telecom (Mega) | Intern Java Developer   May 2024 - Present

Gaining invaluable experience and honing my skills as an intern at Mega Telecommunications, where I am actively involved in backend development using modern technologies and best practices.

- Developed and implemented robust, scalable back-end services for a range of commercial projects, ensuring optimal performance and client satisfaction.
- Collaborated closely with cross-functional teams in a fast-paced, Agile environment to design and deliver innovative solutions using Java and Spring Framework.

Tech Stack: Java, Spring Boot, Spring Data, Spring Security, JUnit, , PostgreSQL, Docker, Git

Lior Dev(IT-Lab) | Intern Java Developer   March 2024 - May 2024

Worked extensively on various commercial projects at IT Lab (Lior Dev), gaining significant experience in software development and contributing to the success of multiple client-driven initiatives.

- Developed and implemented robust, scalable back-end services for a range of commercial projects, ensuring optimal performance and client satisfaction.
- Collaborated closely with cross-functional teams in a fast-paced, Agile environment to design and deliver innovative solutions using Java and Spring Framework.

Tech Stack: Java, Spring Boot, Spring Data, Spring Security, PostgreSQL, Docker, Git

STARTUP & HACKATHON EXPERIENCE

- Participated in several hackathons and startup initiatives, contributing to various projects and innovations.
- Hackathon "Safe Transport - Innovations Against Harassment" - Full-Stack Development: Developed a mobile application with an SOS button that triggers an alarm (implemented in my city) as part of team "Mega," achieving 2nd place.
- Technologies: Spring Boot, Spring Security, Maven, Hibernate, AWS S3, PostgreSQL
- Contributed to startup initiatives at Ala-Too International University's IT club, developing and launching innovative projects, including a platform similar to Instagram for vendors and an anonymous chat application for university IT club members, utilizing Java, Spring Boot, and other modern technologies.

EDUCATION

Ala-Too International University   September 2023 - Present
Bachelor of Computer Science

Epam Campus   June 2024 - Present
Java

Yandex Course   June 2024 - Present
Backend Java
